FinOps Driven Modernization for Enterprises

Identifying high-impact modernization opportunities in enterprise-scale environments

Congratulations! You've moved to the cloud. Now it's time to modernize your applications to take advantage of the digital technology that runs your business. But you write multiple lines of business across many divisions and business units, with various systems involved. And there are many modernization approaches - from refactoring your legacy core platform to developing cloud-native platforms in-house. So, where do you start? And how do you save costs and drive innovation in the process?

FINOPS DRIVEN MODERNIZATION FROM 2ND WATCH IS THE ANSWER

We understand your business and the risks its underlying infrastructure can present. Our unique, proprietary process leverages FinOps principles, cloud cost data, and information about the applications running in your environment to identify the highest priority and most impactful modernization opportunities for your enterprise. It is the best policy to ensure a well-defined approach to your cloud modernization strategy.

BENEFITS OF FINOPS DRIVEN MODERNIZATION

- ✓ High-impact modernization efforts
- ✓ Minimizes unnecessary cloud spend
- ✓ Eliminates redundancy
- ✓ Lowers TCO
- ✓ Increases cloud cost visibility across business units
- ✓ Streamlines your existing application portfolio

WHAT WE DO

IDENTIFY your business needs and priorities

SCORE each business unit and its applications to rank and compare quickly and concisely

INGEST cloud cost and application data

DECIDE the best course of action for the highest priority modernization opportunities

WHAT YOU GET - FINOPS DRIVEN MODERNIZATION ENGAGEMENT

- ✓ A dedicated cross-functional team consisting of Application Modernization and FinOps experts
- ✓ A Modernization Dashboard to visualize the most impactful modernization opportunities across the enterprise
- ✓ A solid FinOps foundation that meets you where you are on your cloud operating journey
